

For Immediate Release

Advantest to Showcase Cloud Testing Platforms at Productronica 2013

Booth to Feature New, Leading-Edge CloudTesting™ Solution

Munich, Germany, November 7th, 2013 - Leading semiconductor test equipment supplier Advantest Europe GmbH will showcase its revolutionary new cloud testing services at Productronica 2013 trade show, stand #1.347, Hall A1, November 12-15 in Munich, Germany.

Visitors will learn how to boost productivity using the industry-first cloud testing system. It combines ATE expertise in semiconductor test with cloud computing technology, ideal for semiconductor design, electronic component R&D, prototype evaluation, failure analysis and academic research. These latest advancements offer engineers an alternative for silicon validation.

“Advantest is excited to join Productronica this year with CloudTesting™ Services,” said Josef Schraetzenstaller, managing director and CEO of Advantest Europe. “This is opening the door for us to engage with a whole new market for whom accessing a personal ATE tester was impossible.”

About Advantest

A world-class technology company, Advantest is the leading producer of automatic test equipment (ATE) for the semiconductor industry and a premier manufacturer of measuring instruments. Its leading-edge products are integrated into the most advanced semiconductor production lines in the world. The company also focuses on R&D for emerging markets that benefit from advancements in nanotech and terahertz technologies, and has introduced multi-vision metrology scanning electron microscopes essential to photo mask manufacturing, and 3D imaging analysis tools to the pharmaceutical and transportation industries. Founded in Tokyo in 1954, Advantest established its first subsidiary in 1982, in the USA, and now has subsidiaries worldwide. More information is available at www.advantest.de.
